

City of Bloomer Water & Wastewater Utility
Application for Water Meter and/or Service Hook-up

Permit Fee \$50

No installation of any meter for water and/or sanitary service shall be allowed without prior approval of the Water & Sewer Utility Department.

All water and sanitary service taps and hookup installations must be inspected by the Water/Sewer Utility personnel and approved before back fill. Water services must be checked for leaks using utility water pressure after flushing air from service line. Sanitary services shall be pressure tested (Reference SPS §382.21). Appointment for inspections shall be made 24-hours prior to excavating. Inspections will be scheduled Monday – Friday, 7:00 a.m. – 2:30 p.m. After hour inspections can be done for an additional cost. The Utility requires a 2-hour minimum confirmation prior to inspection of services.
